

## LABORATORY SCHEDULE

(Revision 2 — 24 Nov 2003)

- Each course has three labs spread out over the ten-week quarter.
- For purposes of scheduling the labs, all classes are referred to by a block number, e.g. ES202-03, ES203-03, and ES204-03 are Block 3.
- All labs meet in the regularly assigned classroom unless you are told differently by your instructor. (See note at the bottom of the table.)
- Not all blocks will be doing the same lab in a given week.
