

CSSE 230: Tree traversal worksheet

Consider the following BST:

- 1) List the node values returned in case of an **in-order** traversal of the tree:
- 2) List the node values returned in case of a **reverse-order** traversal of the tree:
- 3) List the node values returned in case of a **pre-order** traversal of the tree:
- 4) List the node values returned in case of a **level-order** traversal of the tree:
