

CSSE 220 Day 4

2D Arrays and Maps

Check out `2DArraysAndMapsInClass` from SVN

2D Arrays

- Make groups of *exactly* two (no one can work alone)
- Read through the 3 2D Array sample problems with your partner and make sure you both understand how they work
- Then use the code as an example to answer the 2D Array quiz questions
- Call me over when you're finished

Maps

- Make groups of *exactly* two (no one can work alone)
- Read through the 3 Map sample problems with your partner and make sure you both understand how they work
- Then use the code as an example to answer the Map quiz questions
- Call me over when you're finished
